Vegetable Gardening for Beginners: The Basics of Planting ... A good-size beginner vegetable garden is about 16x10 feet and features crops that are easy to grow. A plot this size, based on the vegetables suggested further down this page, can feed a family of four for one summer, with a little leftover for canning and freezing (or giving away to jealous neighbors. Beginner Vegetable Garden | Better Homes & Gardens Other bigger pests, such as moles, deer, and rabbits, can disrupt your raised bed vegetable garden, even a potted vegetable garden. Use fences to deter rabbits. Make sure the bottom of the fence extends 6 inches under the soil to stop rabbits from digging underneath. Vegetable Garden Size Calculator: How Much to Plant for ... As a general rule of thumb, you need anywhere from 100-200 square feet of growing space per person you intend on feeding. We show you why and how to make this possible, as well as determining the ideal vegetable garden size you need for your particular situation.

7 Vegetable Garden Tips - Small Vegetable Garden Ideas Imagine harvesting nearly half a ton of tasty, beautiful vegetables from a 15-by-20-foot plot, 100 pounds of tomatoes from just 100 square feet, or 20 pounds of carrots from just 24 square feet. Vegetable Gardening for Beginners | Gardener's Supply But vegetable gardens that make efficient use of growing space are much easier to care for, whether you're talking about a few containers on the patio or a 50-by-100-foot plot in the backyard. Raised beds are a good choice for beginners because they make the garden more manageable. Guide to Vegetable Garden Pests: Identification and ... No guide to vegetable garden pests would be complete without mention of how interplanting your veggie patch with flowering herbs and annuals can help limit pest numbers by attracting the many species of beneficial insects that prey upon garden pests.

10 Creative Vegetable Garden Ideas - The Spruce Vegetable gardens come in all shapes and sizes. There was a time when people simply had "a garden." Vegetables and flowers were chosen for their usefulness and intermixed in one garden, a cottage garden, that was often in the front yard. Now vegetable gardens can be just as creative and attractive as ornamental flower gardens. Vegetable Gardening Basics, How to Plant and Grow a ... A good vegetable garden must have at least six hours of full sun each day in order for your food crops to mature properly. No amount of fertilizer, water, or care can replace needed sunshine. The soil should be very fertile and well draining so that water never puddles after a rain storm. The Seven Easiest Vegetables to Grow for Beginner Gardeners More Easy Vegetables to Grow. Most root vegetables like carrots, turnips, and radishes are hardy and can be planted directly in the garden early in the spring and left until fall.

Vegetables - Better Homes and Gardens - Home Decorating ... Whether you're ready to plant your first crops or have been growing food for years, you'll find new ideas to keep you going and growing. There's no reason to keep your vegetables separate from the rest of the garden; we show you how with ideas to integrate edibles into the yard (called edible landscaping).
